37th INTERNATIONAL GEOLOGICAL CONGRESS

İstanbul, TÜRKİYE, 2024

Candidate of 37th IGC

Dear Guests,

The General Directorate of Mineral Research and Exploration, as an Adhering Organization of IUGS in Turkey, is greatly honored to host the 37th IGC in İstanbul, Turkey. We are certain that İstanbul will exceed in meeting all requirements and expectations for a memorable and successful Congress.

İstanbul is one of the most impressive and attractive of all cities, standing at the crossroads of Europe and Asia, where the unique beauties of the West and the East come together. We strongly believe that İstanbul will provide a world class venue for the delegates to undergo a cultural, technical, professional and personal experience, with a balanced activities program at the Congress that will ensure that the 37th IGC will be a very successful event.

As already known, no IGC has been hosted in this geographical area before. In this regard, holding the 37th IGC in Turkey, scientists, experts, researchers, public and private sector representatives will come together in technical programs, exhibitions and pre- and post-congress excursions and share their knowledge, thoughts and projects.

With your gentle support, we are very proud to host this important event, the 37th International Geological Congress, in İstanbul.

Yours sincerely,

Yusuf Ziya COŞAR

General Director
General Directorate of Mineral Research
And Exploration (MTA)
National Adhering Organization
