

Yurtdışı Yayınları

M. CEMAL GÖNCÜOĞLU Maden Tetkik ve Arama Enstitüsü, Ankara

Yer bilimlerinde sayısı giderek artan bilimsel ve teknik yayınlar yer bilimcileri, yakın çevresi ile ilgili yayınları bile zor izler duruma getirmektedir. Tüm yayınları izlemek olanağına sahip olmayan araştırmacılara çalışmalarında kolaylık sağlamak için yaklaşık 220 süreli yayın ile birlikte kitap, monograf, rapor, diploma ve doktora tezleri, uluslararası kongre özetlerini de kapsayacak biçimde yayın tarama çalışmaları yapılmaktadır. Bu görevi üstlenen uluslararası kuruluşların yayınlarında, yurdumuzda yer bilimlerine ilişkin belli başlı yayın organlarının sadece birinin taramaya alınmış olması uluslararası bilgi iletişimi konusunda ne denli yavaş kaldığımızın çarpıcı bir örneğidir. Çalışmalarımızı yayın haline getirmekteki genel tembelliğimiz bir yana bilimsel emeğimizin sömürülmesine göz yummak istemiyorsak konuya şövence değil akılcı açıdan

yaklaşmamız gerekiyor. Pek çok araştırmacı kendi çalışma alanlarında ve konularında yayın yapmak bir yana, sağlam verilere ve kanıtlara dayanmayan bilgi aktarımları karşısında da tartışma (discussion) yazısı bile göndermeyecek denli tutukluk içerisinde. Bu tutukluğun kısmen de olsa habersizlikten kaynaklandığı umudu ve bilgi iletişimini hızlandırmak amacı ile ülkemiz ve yakın çevresinde son yıllarda yapılan ve dış ülkelerde yayımlanan yer bilimlerine ilişkin çalışmalar iletilmeye çalışılacaktır.

Değinen belgelerin pek çoğu kuruluşlarımızın ve üniversitelerimizin kitaplıklarından sağlanabilir. Bu konuda yararlı olabilmek amacı ile yer bilimlerine ilişkin yayınların ilgili kurumlardaki dağılımı aktarılacaktır.
